June Dividend Checks Being Flade Out.

Silver City, New Mexico, May 30th, 1966.

T. S. HENDERSON & CO., St. Louis, Mo.:

Dear Sirs—I wired you Monday lest that the smelter and drills were in operation. The smelter has continued to run smoothly from the moment it was started, and has given us no trouble whatever. We have a salendid working force for both the day and the night shifts, and they are piling up the yard with bullion.

Our Metallurgist, Mr. Royal P. Jarvis, has proven himself, a man of superior ability, as he has been able to start and operate the smelter from the start without an error or a hitch—a very unusual thing in starting, and has made an almost perfect and complete extraction of values, as there remains only a trace in the slag, which is also very unusual. We will soon start to shipping buillion to the market and meet the expectations of our stockholders beyond question.

I was also fortunate in getting good drill men, and, although we have not yet fired our new boiler, they are working some of the machines with the hoisting boiler, but will have the new one geing day after to-morrow.

It looks like business at the "Shanrock" now, and I feel greatly relieved since we have things going. With regards,

(Signed)

M. W. FORTEREIELD

(Signed)
It is estimated by the Secretary of the "SHAMROCK" earnings for the month June will show a net profit to the stockholders of \$3,000.00. From all informations a that we can gather from the mines, we believe that the estimate of the Secretary of the Company will hit about the right spot.

We have earnestly advised all of our clients to buy this stock at 40 cts. It is lividend-payer and a money-maker; it is the kind of stock that makes men rich, a par value is \$1.00; monthly dividend of 1 per cent on the par value of the ck. This means 30 per cent annually on your investment, besides the increase the value of the stock. The price may be advanced any day. Now is the time buy it at 40 cents. Market letter free.

T. S. HENDERSON & CO., 507 Commercial Bldg., St. Louis, Mo.

D. 1881 for and in behalf of sail township of La Belle, has on this day deposited in the Bank of Commerce, now National Hank of Commerce in the city of St. Louis, State of Missouri, the amount of money necessary to pay off the principal and interest due upon bonds numbered St. St. St. M. and St. and that it is the intention of said Lewis County to redeem and pay off said bonds so issued for and in behalf of said township of La Belle as aforesaid, Done by order of the County Court of said Lewis County.

HARRY B. SMITH.

County Clerk, Lewis County, Missouri.

#### WALL STREET DISCOURAGED BY FAILURE TO RECOVER.

PROMISING MOVEMENT ENDS IN LOWER PRICES.

Twice the Market Rallies, but Each Time a State of Semidemorilization Follows.

New York, June 9 .- To-day's stock market went through an extraordinary series of fluctuations, closed at the lowest average on the present movement, and in a semidemor alized condition. This was after prices had twice been rallied to above last night's level. the second rally establishing substantial net gains in a number of active speculative leaders. St. Paul rose 21's over last night. Misyouri Pacific 134, New York Central 114 and Pennsylvania, Union Pacific, the Atchisons and Wabash preferred about a point. There were important examples also amongst the industrials, showing gains of a point, and the whole market was a sub-stantial fraction above last night. The large stantial fraction above last night. The large buying on the advance gave the rally a more impressive appearance than anything that has occurred during the present decline, and the conviction of the floor seemed fairly general that the market had turned upwards at least temporarily. The result was undoubtedly due in large part to operations of a professional clique, which planned the demonstration on the assumption that the short interest in the market must have reached very unwieldy proportions and must be vulnerable to attack.

HEARS ALARMED.

BEARS ALARMED. There were in fact evidences of alarm amongst the bears, and large buying devel amongst the bears, and large buying developed to cover shorts. The demonstration was aided by the published opinions of some important leaders in the financial world that many stocks at their present level were solling below their intrinsic values. It has been evident for several days that there was absorption of an influential character in several points in the list, notably in St. Paul, Pennsylvania and New York Central.

Reports from accredited sources sustained the belief that responsible financial interests stand ready to take over all available offerings of Pennsylvania at or about the price which the recent new issue of stock was offered to stockholders for the purpose of feed to stockholders for the purpose of feed to stockholders for the purpose of its hands. Such a state of affairs is calculated to buttress Pennsylvania stock. There were some fears among the bears that the monthly scrip will not reflect as much damage as has been feared, and the approach of the culmination of the flood at St. Louis also prompted the bears on that account to cover their short contracts. The strength in the market, therefore, became quite general. It was not until near 20 clock that the advance culminated. At that time it became evident that the higher level of prices was being used as a basis for renewed liquidation, and the market crumbled until the close, the fall gaining momentum as it proceeded. The force of the selling centered on Baltimore and Ohio and Nortolk and Western 3% and Norfolk and Western 3% and Norfolk and Western 3%.

The failure of so promising a movement oped to cover shorts. The demonstration

ALL DISCOURAGED. The failure of so promising a movement oward recovery redoubled the discourage ment on all hands and heavy selling was renewed in Atchison down to a new low level on this movement at 65½, Union Pacific to 78%, Reading to 43%. Eric to 39% and United States Steel preferred to 78%. Northern Securities also held down to a new low level on the curb. The source of the selling was a mystery, but it was quite commonly attributed to further calling of loans by some large capitalists and the consequent forcing of liquidation. Selling for Boston and for Lendon account was an influence on the weakness. There was little in the way of news development beyond a renewed outbreak of the wild speculation in cotton, in which Wall street was reported to be on the short side, and a further hardening of the time-money market. Transfers of currency to New Orleans and reports of a new demand from San Francisco had rather an ominous influence on feeling over the money outlook.

The bond market shared in the weakness. ment on all hands and heavy selling was reof stocks, but in only a moderate degree.
Total sales, par value, \$1.985,000. United
States 2s and 3s advanced 14 per cent on the

Among the more important decreases reported this week are those of 50,000 bu. in Manitoba, and 65,000 bu. at Grand Rapids. The leading increases are those of 231,000 bu, at Chicago private elevators; 128,000 bu, at Chicago private elevators, 112,000 bu, at Depot Harbor, and 73,000 bu. at Portland, Me.

#### TRANSIT COMPANY GAINS ON BOND GUARANTEE NEWS.

CENTRAL COAL AND COKE IS WELL SUPPORTED.

List Generally Showed Improvement and Trading Was Fairly Active.

There was more activity on the St. Louis Stock Exchange yesterday morning than has been the case for several days. Bidding was quite lively and over 60) shares of stock and \$2,000 of bonds exchanged hands. Prices were generally a little higher than at the eicse of Monday.

The uanimous sanction by the United Railvay stockholders of the proposition to guarantee the new bond issue of the Transit Company caused an advance in the shares of the latter company. One block was sold at \$23.1242 and there was a good demand for the stock at the close. Central Coal and Coke was in good de-

mand. One hundred shares were taken at \$62.50 and considerable more could have been old at a fraction less. A weak point was Beatman's Bank, which sold 2 points under Monday's price. There appeared to be buyers for Germania Trust, but none of the tock was offered under \$25.

Mississippi Valley Trust, which lead the list Monday, was unchanged. A small lot was taken at \$429. There was an active demand for Missouri Trust, which was held rather firmly. One sale was recorded at \$127. United Railway 4s were weaker, \$1,000 selling at \$84.37½. YESTERDAY'S SESSION.

New York, June 9.—Spot cotton closed quiet, 5e points higher; midding uplands 12,40c; mid-dling Gulf 12,85c; sales 558 bales. Futures closed dling Guif 12.85c; sales 58 hales. Futures closed irregular and unsettled; June 12.12c; July 12.15c; Aug. 11.55c; Sopt. 19.55c; Oct. 9.80c; Nov. 9.86c; Dec. 9.60c; Jan. 9.81c; Feb. 9.61c. The market opened at a decline of 1 point to an advance of 12 points under firmer cables and a continued scare of July shorts. It was one of the most nervous and excited openings of the season. On the call July sold first at 11.85c, went 11.88c, 18.8c, then jumped to 11.92c and sold at 11.95c, with later months more active and no less excited. Aug. sold at 11.30c. Sept. at 19.34c, Oct. at 9.75c and Dec. at 9.50c. The receipts for the day were moderate. further showers were reported over the cottor belt, and Liverpool, which first sent disappointing response to our advance on the old-crop months yesterday, showed further strength. Notwithstanding this, after the call there was tremendous realizing, and July declined to 11.78c, Aug. to 11.18c, Sept. to 19.30c and Oct. to 9.70c. Then the strength in New Orleans attracted attention again, and orders began to come in from that center, while the profit-taking by longs had about run its course. Shorts began to cover, and by midday prices were net 5 to 22 points higher. At this level the weekly report of the Weather Bireau was reveived and other to 2.5%. Then the strength in New Orleans attracted attention again, and orders began to come in from that center, while the profit-taking by longs had about run its course. Shorts began to cover, and by midday prices were net 5 to 22 points higher. At this level the weekly report of the Weather Bureau was received and trading became the wildest of the session, and even more excited than at any previous time this session. Within ten minutes July was rushed up to 12 Me. Aug. to 11-57c. Sept. to 19.56c, the general list at this time showing a gain of 12 to 33 points over the vensational advance of yesterday. Throughout the entire afternoon there was no material diminution of the activity and excitement, and, while there was an occasional narrow recession, the market continued its inward career until July solid at 12.77c. Aug. at 11.81c. Sept. at 19.57c and Oct. at 9.59c. At this level the market was not 12 to 64 points above the forming of yesterday. Such profits as this maturality strength of the party realizing, and active months broke sharply, the market continue, the market was not 13 to 64 points above the July was finally quoted at 12.57c. Aug. at 19.57c and Oct. at 9.59c. At this trend the session, with July quoted at 12.50c. blug at 11.67c, and 0.67c and

New York, June 9.—The market for evaporated apples continues quiet, but holders are firm in their views, and in some instances ask over quotations for strictly prime qualities. Common are quoted at 4855cc; prime at 5½c; choice at 6c and fancy at 65607½c. Spot prumes are firm and a fair jobbing trade is reported at quotations which rainse from 3c to 7c for all grades. Apricots are firm on choice and fancy grades, the furmer being quoted at 7½85%c, the latter at 10812½c. Peaches are in moderate demand and strady to firm at 787½c for choice and 8g10½c for fancy.

Dry Goods.

## SUMMARY OF ST. LOUIS MARKETS.

There was a decidedly mixed and uncertain feeling shown in the market for both wheat and corn again yesterday. Prices early were weak and sharply lower, especially in the former, but in the last few minutes of the session a sharp reaction took place and wheat closed with a gain, while the coarse grain was firm and unchanged for the day. While considerable rain had fallen in the winter-wheat territory, and further talk of damage in some sections, there was plenty of stuff for sale, particularly of the late option. Advices that cutting of wheat had commenced in Southeast Missouri and Brad-street's report showing an increase in the visible supply also added to the weakness. Reports, though, that the Illinois State report was out and was very bullish started early sellers to buying and caused market to react again. Transactions were mainly by regular floor traders and the local bull crowd sustained the near-by delivery. Wire trouble again interfered considerably with the news from other markets.

Corn was likewise weak and depressed early on general liquidation and reports of im-

proved weather conditions in the East. Rains were reported throughout the corn belt, but without effect, and support only from shorts or scalpers. The upturn in wheat and the weekly Government report, said to be bullish, strengthened it later. July wheat opened 4c off and closed &c higher,

July corn opened 1463c lower and closed unchanged for the day.

July oats opened is higher and closed at the same. Receipts of produce were quite liberal, except potatoes, which are scarce and higher.

Local securities were moderately active. Tractions were in demand and firmer. Bank

Yesterday's bank clearings were \$5,739,396, balances \$1,149,981. Discount rates were steady between 5 and 6 per cent.

Spot cotton was firm and 'ic higher in the local market.

#### WHEAT CLOSED HIGHER ON SHORTS CORNERING.

COARSE GRAINS ALSO FIN-

ISHED STRONGER.

Were Lower Early on Liquidation, but Rallied Later on Bullish Crop Reports.

Weather conditions were not so favorable is on Monday, as considerable rain was reported to have fallen in some sections of the winter-wheat belt. Then, too, there was further talk of damage to crops in the lowlands, while early cables showed Liverpool very well sustained, but a general disposi-tion was shown to set, especially the Sept. option, and lower prices again ruled. Trade mainly local outside interest again being restricted account of wire trouble. Support omes principally from shorts or scalpers. Toward the close of the session, however, Toward the close of the session, however, the Illinois State report, which was said to be out, and to be very builts, started early sellers to recovering their lines. Offerings were light and very strongly held, and tesulted in market reacting and finishing the day strong and higher.

Bradstreet's report the available supply of wheat east of the Rockies for the past week at 2,05,000 bu, decrease, but stocks in and affoat for Europe increased 2,300,000 bu, anaking the world's visible supply increase 107,000 bu, as compared with a decrease of 4,60,000 bu, in 1902.

July wheat opened ½c off and sold at:

July wheat opened the off and sold at:

July wheat opened the off and sold at:

7616. 7636. 7636. 7636. 7636. 7636. 7636. 7636.

The first of the corn market at the start was without any feature of note. Despite the rains in the greater part of the corn belt conditions were considered very favorable. Then, the situation in the East was improved, and under free liquidation and lower markets elsewhere the feeling prevalent was weak and prices worked lower. The late strength in wheat, though, and better outside markets, weekly Government report said to be builish, caused renewed later.

Bredstreet's report the available supply of

later.

Bradstreet's report the available supply of corn east of the Rockies for the past week at 1.488,000 bu., as compared with an increase of 648,000 bu. a year ago.

Late market was strong in line with the action of Chicago, and July sold from 46% to 47½6447½c, and closed the day steady at same. Sept. closed ½c off at 56c bid.

July corn opened ½67%c off and sold at:

243,000 bu.

Receipts of oats at St. Louis were 9,450 bu., of which 6 cars local and 1 car through, against 44,550 bu., of which 18 cars local and 15 cars through, in 1902. Shipments were 24,-880 bu.

Bradstreet's reports the available supply of oats east of the Rockies for the last week at 121,000 bu. decline, as compared with a decrease of 738,000 bu. in 1902.

Receipts of oats at primary points were 537,000 bu., against 35,000 bu., against 280,000 bu. shipments were 407,000 bu., against 280,000 bu.
